Mr. Richard Burgos
Project Manager
Mass Electric Company
1925 Wright Avenue
La Verne, CA 91750

Subject: Oceanside Passing Track and Bridge Replacement Project, 2009 Annual AREMA conference, Chicago, IL.

Dear Rich:

The Oceanside Passing Track Project was presented in the main conference at the 2009 Annual AREMA conference in Chicago this past week. I am sorry you were unable to attend.

As you know the project was a great success. Mass Electric performed all signal installation and cut over work in a cost efficient and timely manner. I did mention this during my power point presentation.

Enclosed is a copy of the "Congratulations Team" plaque that was presented to the top tier of the team. Unfortunately we did not have enough room on the plaque to include all of the logos of the entire team.

I plan on presenting the Power Point presentation of the subject project at the Southern California Railway Club in mid October and you will be invited to attend.

Thank you for the significant part you and your company played in making this project a great success.

Sincerely,

A handwritten signature in blue ink, appearing to read "John P. Eschenbach".

John P. Eschenbach
Sr. Project Manager
Amtrak Southwest Division
