Attention: Steve Maciag  
MASS Electric Construction Company

Subject: South Corridor Project Portland Mall Segment  
TriMet Contract No. RH050506LE  
Letter of Appreciation

For all aspects of this complicated project, the Portland Transit Mall project was a huge success. THIS WAS AN ABSOLUTE TEAM EFFORT BY ALL. These successes include an outstanding safety record, quality of work, Owner and Contractor relations, the many Subcontractor contributions, detailed design effort, DBE contracting goals and outreach, diversity in the workforce, local business and community accolades, outstanding community relations, interaction with the public, and third party general liability management.

As such, enclosed please find a small token of our appreciation for your contribution to the project's success.

It is not often that a project of this magnitude receives favorable commentary from all involved and touched by the project. The Stacy and Witbeck, Inc./Kiewit Pacific Joint Venture is very appreciative of your individual efforts in making the Portland Transit Mall project a huge hit.

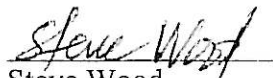

Great job!

Sincerely,

**Stacy and Witbeck, Inc./Kiewit Pacific Co. a Joint Venture**
